SANDAG

The 18 cities and county government are SANDAG serving as the forum for regional decision-making. SANDAG builds consensus; plans, engineers, and builds public transit; makes strategic plans; obtains and allocates resources; and provides information on a broad range of topics pertinent to the region's quality of life.

ARRESTS 2008: LAW ENFORCEMENT RESPONSE TO CRIME IN THE SAN DIEGO REGION

INTRODUCTION

The Criminal Justice Research Division of the San Diego Association of Governments (SANDAG) functions as the Clearinghouse for criminal justice information for the region. On an annual basis, the Division prepares a report on local criminal justice agencies' response to crime in the region, as measured by arrest statistics. Such information provides an added dimension to our bi-annual reports on crime data for understanding the nature of crime and an additional measure that can be used in justice system planning.

This CJ Bulletin includes regional arrest rates per 1,000 adult and juvenile population, as well as numbers of arrests by offense type. In addition, 42 supplemental tables, which include statistics for individual jurisdictions, are presented.

Some points to remember when interpreting these numbers include:

- Similar to how the FBI counts reported crimes, the offense or charge attributed to an arrest may reflect only the most serious out of a number of violations included in the case.
- Arrests are documented by the location at which the arrest occurred and cannot be assumed to have any relationship to the location of the crime incident or the residence of the alleged offender.
- Arrest and crime rates and numbers should not be compared to one another. One reason is that the two events may occur in two entirely different periods of time, with an arrest made months or even years after the related crime has been reported.

FAST FACTS

- On average, almost 267 adults and around 50 juveniles were arrested each day in 2008 in the San Diego region.
- The 2008 adult arrest rate of 41.2 per 1,000 population represented the first increase since 2004 and was one percent higher than the rate in 2007. This increase was tied to more misdemeanor arrests, rather than felony arrests.
- The 2008 juvenile arrest rate of 54.2 represented a nine percent increase from 2007, only the third in the past ten years. Arrests for felonies, misdemeanors, and status offenses were all up, compared to 2007.
- San Diego County had the third highest adult and second highest juvenile arrest rates compared to the other four most populated California counties in 2008. Additionally, San Diego County was the only one to have a one-year increase overall, compared to those four counties and the State overall.
- Around one in every two adult arrests in 2008 was for an alcohol- or other drug-related offense. The most common arrest type in 2008 was misdemeanor driving under the influence (DUI), with 18,001 adults arrested over the 12-month period (equating to more than 49 per day).
- Juvenile arrests for status offenses were up considerably from 2007 (25%), with one of the greatest increases related to curfew violations.

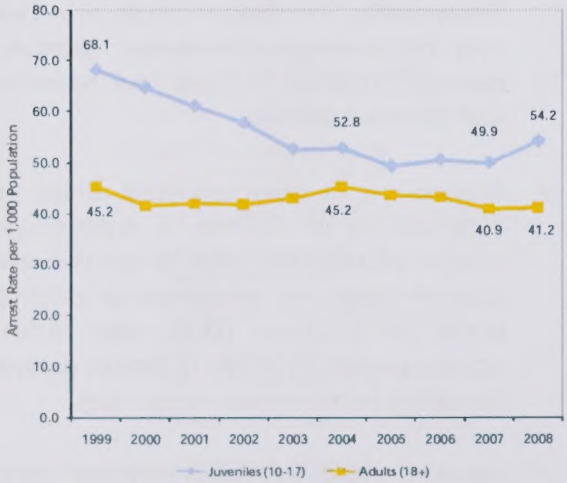
ARREST RATES

Trends

In 2008, there were 41.2 adults arrested per 1,000 population. As Figure 1 shows, while this rate was the second lowest in the past ten years, it did represent the first increase since 2004. Across the jurisdictions, the adult arrest rate varied from 17.0 to 57.5 in 2008, with nine reporting a higher rate and ten a lower rate, compared to 2007 (Table 7).

The arrest rate for juveniles, which has traditionally been higher than for adults, has shown a somewhat different pattern over time (Figure 1). Rather than fluctuating, the juvenile rate decreased fairly consistently through 2005, with a slight one-year increase in 2006. This increase was followed by another decrease in 2007, but then an even larger increase of nine percent to 54.2 in 2008. Across the jurisdictions, the juvenile arrest rate varied from 14.3 to 86.9 in 2008, with eleven reporting one-year increases, six one-year decreases; and for two the number of arrests was too small to compare (Table 10).

Figure 1
JUVENILE ARREST RATE INCREASED FOR ONLY THIRD TIME IN PAST TEN YEARS



SOURCES: California Department of Justice; SANDAG

Felonies and Misdemeanors

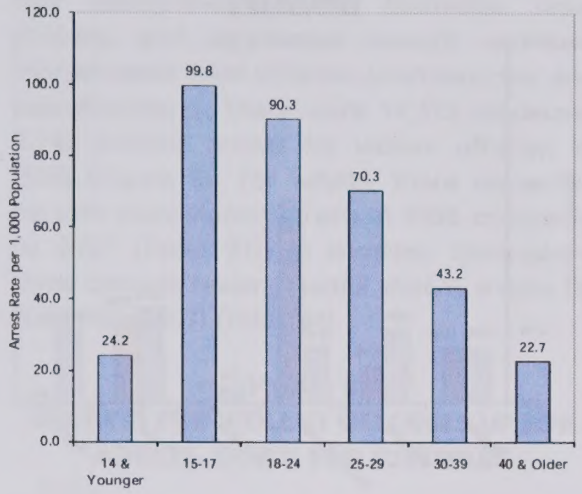
For adults, while the felony arrest rate actually decreased over the past year (-7%, from 12.4 in 2007 to 11.5 in 2008), the misdemeanor arrest rate increased by four percent (from 28.6 to 29.8), explaining the overall increase since most arrests are for misdemeanor level offenses (Tables 8 and 9). For juveniles, both types of offenses were up, but arrests for misdemeanors increased to a greater degree (7%, from 25.4 to 27.2), compared to felonies (2%, from 16.0 to 16.3) (Tables 11 and 12).

Arrestee Age and Race

As Figure 2 shows, the arrest rate by age group peaks for 15 to 17 year olds (99.8 per 1,000), and then declines, from 90.3 for those between the ages of 18 to 24 to 22.7 for those 40 years of age and older. Over the past year, the arrest rate increased to the greatest degree for those youth 14 years of age and younger (12%), and the only age group that actually showed a one-year decline was those 30 to 39 (-3%) (Table 2).

Arrest rates also varied by ethnic group for both adults and juveniles, with individuals of "other" ethnicities having the lowest rate (19.0 and 21.2, respectively), while Blacks had the highest rate (130.4 and 126.6). Over the past year, the arrest rate increased for each of the ethnic groups (from 1% to 6%) (Table 3).

Figure 2
ADULT ARREST RATES LOWER FOR OLDER AGE GROUPS



SOURCES: California Department of Justice; SANDAG

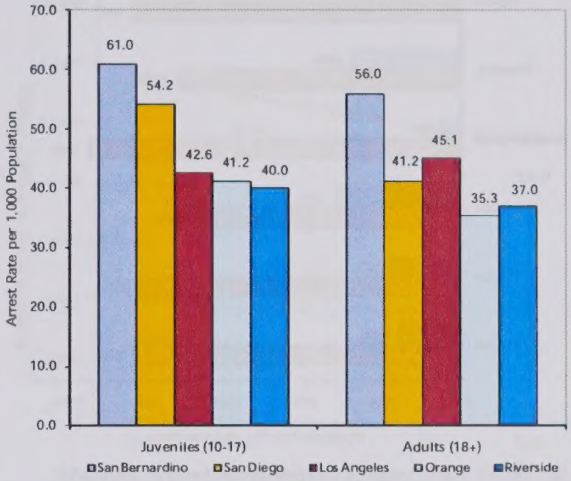
SAN DIEGO COMPARED TO OTHER CALIFORNIA COUNTIES

In 2008, San Diego County had an adult arrest rate (41.2) that was lower than the State's (46.5). However, the region's juvenile arrest rate of 54.2 was higher than the State's (49.7) (Table 6). In addition, as Figure 3 shows, San Diego County had the second highest juvenile arrest rate and the third highest adult arrest rate, compared to the other four most populated counties in the State (San Bernardino, Los Angeles, Orange, and Riverside). Over the past year, San Diego was the only large county to have an increase in arrest rates overall (2%), compared to the others who all had decreases (ranging from 1% to 5%).

NUMBER OF ADULT AND JUVENILE ARRESTS

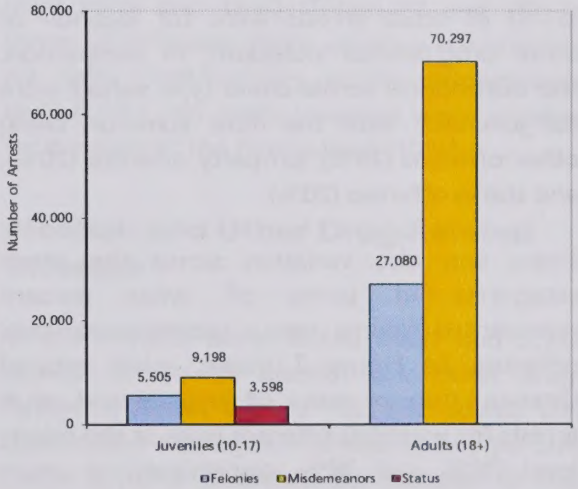
Even though juveniles have historically had a higher arrest rate per 1,000 population compared to adults, it is important to note that many more adults are actually arrested. In 2008, there were 97,377 adult arrests and 18,301 juvenile arrests, with the majority of these at the misdemeanor level (Figure 4 and Tables 14 and 27). In other words, on average, there were almost 267 adults and around 50 juveniles arrested every day in 2008 in the San Diego region by local law enforcement agencies (not shown).

Figure 3
SAN DIEGO COUNTY HAD SECOND HIGHEST JUVENILE ARREST RATE AND THIRD HIGHEST ADULT ARREST RATE IN 2008



SOURCES: California Department of Justice; SANDAG

Figure 4
MOST ARRESTS IN 2008 WERE ADULTS FOR MISDEMEANOR OFFENSES

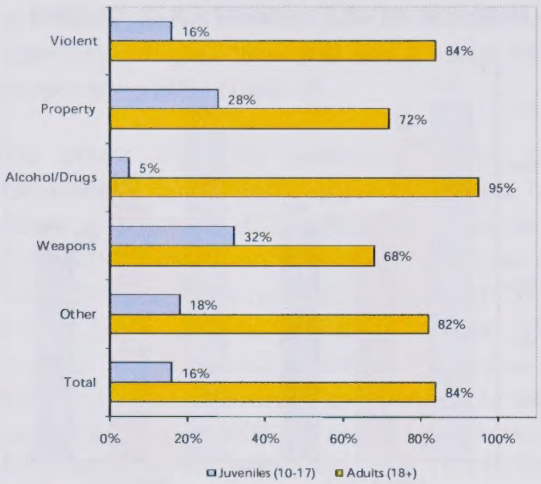


SOURCES: California Department of Justice; SANDAG

As Figure 5 shows, while 16 percent of all individuals arrested in 2008 were juveniles, there was variation by crime type, with

juveniles more likely to be arrested for weapons offenses (32%) and property offenses (28%), and less likely to be arrested for alcohol- and other drug-related offenses (5%).

Figure 5
JUVENILES REPRESENT HIGHER PROPORTION OF ARRESTS FOR WEAPONS OFFENSES



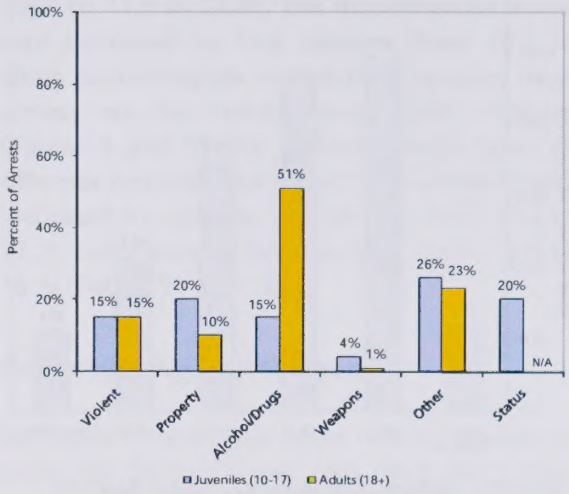
SOURCES: California Department of Justice; SANDAG

ARRESTS BY OFFENSE TYPE

What types of crimes are adults and juveniles arrested for? As Figure 6 shows, around half (51%) of adult arrests were for alcohol- or other drug-related violations. In comparison, the distribution across crime type varied more for juveniles, with the most common being other offenses (26%), property offenses (20%), and status offenses (20%).

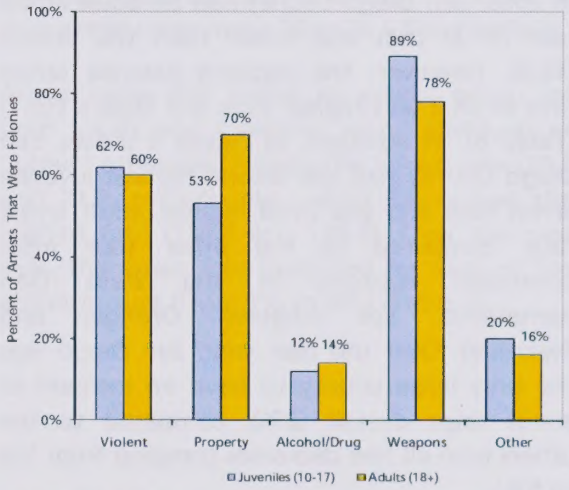
There was also variation across the arrest categories in terms of what percent represented felony- versus misdemeanor-level offenses. As Figure 7 shows, while around three-quarters or more of juvenile and adult arrests for weapons offenses were at the felony level (89% and 78%, respectively), a much smaller percent were felonies in the alcohol/drug (12% and 14%) and "other" offense categories (20% and 16%).

Figure 6
ADULTS MORE LIKELY TO BE ARRESTED FOR ALCOHOL- AND OTHER DRUG-RELATED OFFENSES



SOURCES: California Department of Justice; SANDAG

Figure 7
PERCENT OF ARRESTS AT THE FELONY LEVEL VARIES BY OFFENSE TYPE

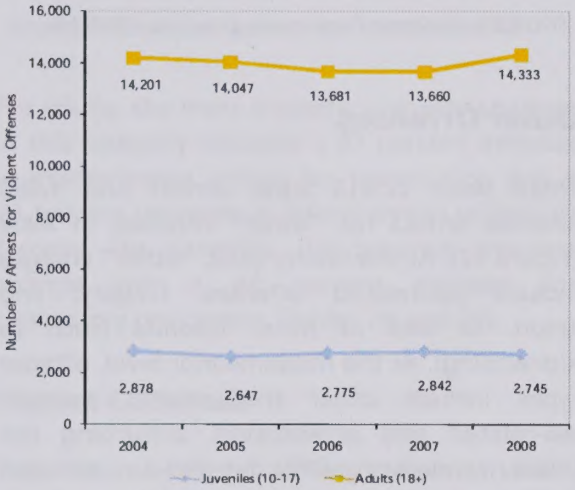


SOURCES: California Department of Justice; SANDAG

Violent Offenses

The violent offense arrest category includes four felony-level offenses (homicide, rape, robbery, and aggravated assault) and two misdemeanor-level offenses (manslaughter and assault/battery). There were 14,333 adult and 2,745 juvenile arrests for violent offenses in 2008 (Figure 8). For adults, there were five percent more violent arrests in 2008, compared to 2007 (Table 21). In contrast, there were three percent fewer juvenile violent arrests (in 2008 than 2007) (Table 34).

Figure 8
ARRESTS FOR VIOLENT OFFENSES UP FOR ADULTS, DOWN FOR JUVENILES



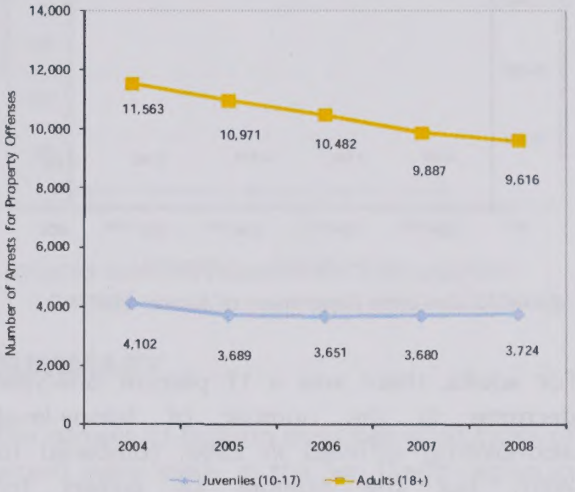
SOURCES: California Department of Justice; SANDAG

Across the violent arrest categories, more adults were arrested in each of the five categories, but the largest one-year increases were seen in arrests for homicide (17%) and rape (16%). For juveniles, the only violent crime category that had a one-year increase was misdemeanor manslaughter/assault and battery, which increased two percent (Tables 22 and 35).

Property Offenses

Property offenses include burglary, larceny, and motor vehicle theft at the felony level, and petty theft and burglary at the misdemeanor level. In 2008, there were 9,616 adults arrested for a property offense, which represented a three percent drop from 2007 and the fourth consecutive decrease (Figure 9 and Table 21). For juveniles, there was less variation over the past five years, with a one percent increase from 2007 to 2008 (Table 34).

Figure 9
ARRESTS OF ADULTS FOR PROPERTY OFFENSES SHOW DOWNWARD TREND



SOURCES: California Department of Justice; SANDAG

Across the property categories, the biggest one-year decrease for both adults and juveniles was in the number of arrests for motor vehicle theft (41% and 15%) (Tables 23 and 36). In terms of increases, more adults were arrested for petty theft/burglary at the misdemeanor level (11%) and more juveniles were arrested for burglary at the felony-level (10%).

Alcohol- and Other Drug-Related Offenses

In 2008, there were 49,448 adult and 2,785 juvenile arrests for alcohol- and other drug-related offenses (Figure 10). For adults, this represented a one-year increase of two percent (Table 21). For juveniles, the increase of five percent from 2007 to 2008 represented the second consecutive jump (Table 34).

Figure 10
ADULT AND JUVENILE ARRESTS FOR ALCOHOL- AND OTHER DRUG-RELATED OFFENSES INCREASED OVER PAST YEAR

SOURCES: California Department of Justice; SANDAG

For adults, there was a 17 percent one-year decrease in the number of felony-level alcohol/drug offenses in 2008, compared to 2007, but the number of arrests for misdemeanor offenses increased six percent, with the largest one-year jump (25%) in the number of arrests related to marijuana. For juveniles, arrests were up at both levels, but the greatest one-year increases were seen for marijuana offenses at both the felony (21%) and misdemeanor (10%) level (Tables 24 and 37).

Weapons Offenses

There were 1,367 adult arrests and 646 juvenile arrests for weapons violations in 2008 (Figure 11). For adults, 2008 represented an increase of five percent from the number reported in 2007. For juveniles, the decrease from 2007 to 2008 was the fourth consecutive, with a four percent drop from 2007 (Tables 21 and 34).

For both adults and juveniles, arrests for misdemeanor weapons offenses were up (Tables 25 and 38).

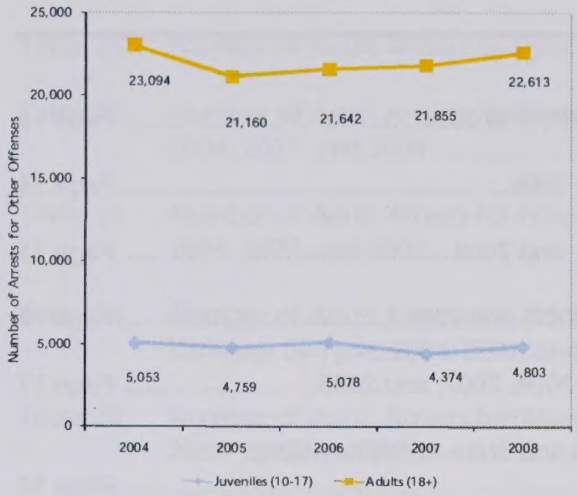
Figure 11
ARRESTS FOR WEAPONS OFFENSES UP FOR ADULTS, DOWN FOR JUVENILES

SOURCES: California Department of Justice; SANDAG

Other Offenses

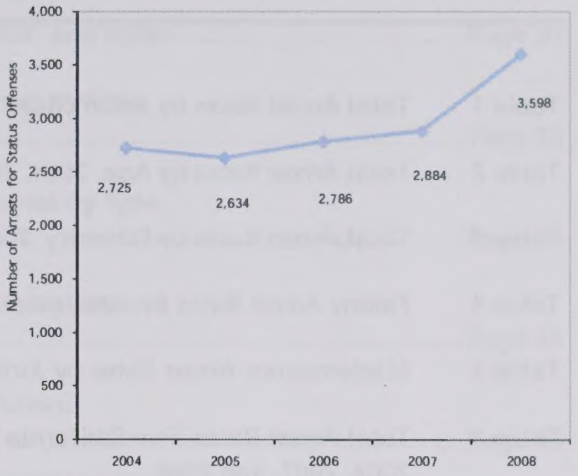
There were 22,613 adult arrests and 4,803 juvenile arrests for "other" offenses in 2008 (Figure 12). At the felony level, "other" charges include sex-related offenses, forgery, and arson, as well as other felonies (such as kidnapping). At the misdemeanor level, offense types include other theft-related charges, sex-related and prostitution, disturbing the peace, vandalism/graffiti, hit-and-run, selected traffic offenses, violations of city/county ordinances, failure to appear in court, and other charges such as contributing to the delinquency of a minor. Over the past year, the number of adult arrests for "other" offenses increased three percent (Figure 12 and Table 21). For juveniles, there was no clear trend between 2004 and 2008, with 4,803 arrests in 2008, a 10 percent increase from 2007 (Table 34).

Figure 12
NUMBER OF ARRESTS FOR OTHER OFFENSES UP FOR ADULTS AND JUVENILES



SOURCES: California Department of Justice; SANDAG

Figure 13
NUMBER OF STATUS OFFENSE ARRESTS HAS INCREASED SINCE LAST YEAR



SOURCES: California Department of Justice; SANDAG

For adults, the most dramatic one-year changes in this category included a 57 percent increase in misdemeanor arrests for prostitution and a 23 percent decrease in felony arrests related to forgery. For juveniles, the greatest one-year change was a 44 percent increase for city/county ordinances (Tables 26 and 39).

Status Offenses

There were 3,598 status offense arrests in 2008, a 25 percent increase since 2007 (Figure 13). Over the past year, the number of arrests for "other" status offenses increased the most (43%), a category that includes incorrigible behavior and failure to obey orders of the Juvenile Court, followed by arrests for curfew violations (32%) and runaway behavior (19%) (Table 40).

SUMMARY

The current CJ Bulletin describes what types of arrests were made in the San Diego region in 2008 by local law enforcement agencies. The arrest rate for both adults and juveniles was lower in 2008 than ten years prior, but the pattern of change varied, with juvenile arrest rates showing a more consistent decline over time, but a larger increase more recently. While the juvenile arrest rate has traditionally been higher than the adult rate, the difference has declined over time and it is important to note that in terms of numbers, many more adults are actually arrested each year (84% of all arrests). About one in every two adult arrests is for an alcohol- or drug-related offense, while juveniles show greater variation in the offense type leading to their justice system contact. Some notable changes over the past year in arrest rates included an increase in both adults and juveniles being arrested for weapons offenses at the misdemeanor level and more juvenile arrests for marijuana-related offenses at both the felony and misdemeanor level.
